## Question Of The Week September 2, 2018

Dear Valued Customer,

This week, we have another free webinar and on Saturday, we have our seminar. Get all the details below!

If you're a Remote Technical Support (RTS) customer and haven't done so already, you have about three weeks to log into us with our old software so we can install the new software. Otherwise, you'll need to install our new Remote software manually yourself. Please do so at your earliest convenience.

REMINDER: Microsoft and/or Apple will NEVER call you, they will NEVER cause a window to appear on your device warning you that it's infected and that you should not turn it off or you'll lose everything. These are SCAMS.

Hope to see you this week either at our webinar or our seminar (or both).

Have a great week!

## Question of the Week

**Question:** "I keep hearing people talk about memes. What the heck is a meme?"

**Answer:** A meme (pronounced mēm) is a humorous text, video or picture that is spread around the Internet. It is often a play on a famous saying or photograph. Basically, a meme is fun although, sometimes, a meme can be cruel or nasty.

Memes are easy to share on Social Media, especially using Smartphone or Tablet apps.

The saying above and the three below are all examples of memes.

I work hard  
so my dogs can have  
a better life.

I want to be the  
reason you look  
down at your  
phone and smile.

Then walk into  
a pole.

I'm sorry I didn't  
answer my phone  
when you called.

I don't use it  
for that
