Question Of The Week September 17, 2018

Dear Valued Customer,

This week's question is answered by visiting our blog! We hope you're taking the time to read our blog at least once a week. New postings go up almost every day!

There's another free webinar this week and we hope you'll join us. Get all the info below.

Time is running out if you're an RTS customer - you need our new software! Find the details farther down in today's email.

REMINDER: Microsoft and/or Apple will NEVER call you, they will NEVER cause a window to appear on your device warning you that it's infected and that you should not turn it off or you'll lose everything. These are SCAMS.

Hope you can join us Friday for our webinar!

Take care.

TIME IS RUNNING OUT!

If you are a Remote Technical Support (RTS) customer, there is only one week left to use our old software. If you haven't done so already, please log in to us with the old software and we'll install the new. How can you tell if you already have the new software? Easy! If you have our icon on your desktop and it's labeled "4KCC Help Portal" then you have the new software. If you have any icon other than that one, you need to log in and let us install the new software.
