Question Of The Week September 25, 2018

Dear Valued Customer,

Are you visiting our blog? You should be! New postings go up almost every day!

There's another free webinar this week. Get all the info below.

We have a special deal on a Dell laptop but, there are only 9 available and they will go fast. See below!

REMINDER: Microsoft and/or Apple will NEVER call you out of the blue, they will NEVER cause a window to appear on your device warning you that it's infected and that you should not turn it off or you'll lose everything. These are SCAMS.

Hope you can join us tomorrow for our webinar!

Have a great week!

Question of the Week

Question: "What are these weird windows at the top of my browser? They're taking up a lot of space on the page."

Answer: This customer is using Microsoft Edge in Windows 10. Just click the button below to find out what's going on!

Weird Windows

Joyce is famous for giving unique and different gifts - at Christmas and at other times of the year. I'm going to let you in on her secret! She uses great websites like OrnamentShop.com. *(We loved this site so much, we became affiliates. If you click and buy, we make a buck!)* Here, she first finds "the gift" for the person she has in mind. Then, she personalizes it and that makes our gift stand out. Isn't this little cat ornament adorable? Why not take a moment to click on it and see what other great animal ornaments are available this year!
